OUR CHAPLAINCY CENTRES . . .

are welcoming places – not
just offices

home-like environments – for
lunch, meetings, programs and
events – for meeting chaplains
and fellow students

for building relationships
and getting involved in a
variety of ways

quiet places for study or
conversation – to noisy hectic
places for social gatherings
and events.

Mostly welcoming places –
the best way to get to know
us, to find out if Chaplaincy
can help make your Concordia
years fuller ones is to
drop by . . .

Chaplaincy is . . .

An Ecumenical Ministry made up of chaplains from different traditions responding to the needs of the entire community. While we at times work within the context of our own religious affiliations; we also work together to raise questions and issues which unite our particular faith perspectives and hopefully strike at the heart of what it means to be human.

An Interfaith Ministry. We believe that the search for truth is at the heart of all the major world religions. We believe that we can only profit through an honest and open exchange with all our fellow seekers after truth. The University is and ideal place for this exchange.

A prophetic challenge in the search for truth, for meaning and for courage to act justly in our lives. We want to share this search with you.

A Holistic Approach to Education. The University is a time of growth, change and decision-making. We want to help make the University experience a full and whole one – from questions of faith, God and human freedom, to issues of peace, justice, political, social and personal questions. Our years here together can be an opportunity to search for the deeper meanings and purpose in our lives.

WHO WE ARE . . .

The University Chaplains operate ecumenically and in an interfaith spirit; and have this as a basic departmental philosophy.

Our Associates (full and part-time), while mandated through their particular religious traditions, work with us as members of our ecumenical team.
